👤 ABOUT ME

Software Engineering graduate with one year of industry experience at MarketPush Apps, working on web applications, API integration, testing, and documentation. Comfortable working with structured data, following processes, checking for errors, and solving day-to-day issues. A quick learner with good attention to detail and an interest in moving into process-driven roles where accuracy, communication, and problem-solving are important.

📁 WORK EXPERIENCE

Intern Software Engineer

09/2024 – 09/2025

MarketPushApps

Romania

- Developed and maintained web application features using ReactJS.
- Integrated and tested REST APIs using Postman and Swagger.
- Checked API responses and application behaviour to identify and fix issues.
- Followed design specifications and implemented features based on requirements.
- Documented APIs and development work where required.
- Used GitHub for version control and worked with the team throughout development and testing.
- Worked with structured application data and paid close attention to accuracy and consistency.

🎓 EDUCATION

GCE Advanced Level - Physical Science (Combined Mathematics)

12/2019 – 02/2022

Thurstan College, Colombo

Sri Lanka

BEng (Hons) Software Engineering — Completed

01/2023 – 08/2026

Informatics Institute of Technology

Sri Lanka

Formal graduation/convocation: November 2026

🧠 SKILLS

- Strong Work Ethic
- Time Management
- Team Work
- Interpersonal Skills
- Adaptive Learning

📁 PROJECTS

Room ODD — Architectural Firm Website

2026

Tech: Next.js 15, TypeScript, Tailwind CSS, Framer Motion, Resend

Full-stack architectural consultancy platform featuring editorial design aesthetics, 13 dynamic routes, multi-category portfolio filtering, and validated consultation booking workflows.

Typing Effect

2025

Tech: React, TypeScript, GitHub

Developed a custom React component to animate web titles using react-simple-typewriter, featuring multiple style templates and reusable hooks.

CaseCobra

2024

Tech: Next.js, React, TypeScript, Tailwind CSS, Node.js

Personal project built with Next.js & TypeScript to create a custom mobile cover ordering platform. Gained hands-on experience with Shaden UI, React hooks, and modern UI development.

ViprWatch

2024

Tech: Flutter, Firebase, Machine Learning, AWS

Mobile application for snake identification using machine learning. Led the team and followed full SDLC practices in a production-level project.

Pixilla

2023

Tech: HTML, CSS, JavaScript

Web-based gaming application built to gain hands-on experience in frontend web development.

TECH SKILLS

- **Programming:** TypeScript | JavaScript | Python | Java | HTML | CSS
- **Web:** ReactJS | Next.js | Node.js | Tailwind CSS | Shadcn UI
- **Databases / Cloud:** MongoDB | Firebase | AWS
- **Testing / Tools:** Postman | Swagger | GitHub | VS Code | Antigravity | Figma | Google Colab | Google Docs/ MS Word | Google Excel/ MS Excel
- **Other:** Machine Learning | Claude Code / MCP Servers | Slack
