👤 ABOUT ME

I am a Software Engineering graduate with a completed BEng (Hons) in Software Engineering from the Informatics Institute of Technology (IIT), affiliated with the University of Westminster. I have practical experience in software development through industry experience and personal projects, with a strong focus on modern web technologies, including React, Next.js, TypeScript, and Node.js. I am a self-motivated and adaptable engineer who enjoys solving problems, learning new technologies, and building reliable, user-focused software.

📁 WORK EXPERIENCE

Intern Software Engineer 09/2024 – 09/2025
MarketPushApps Romania
As an Intern Software Engineer at MarketPush Apps, I worked on web application development using ReactJS, building and maintaining frontend components while integrating REST APIs. I followed designs accurately using Figma and implemented them with Figma MCP and Design System MCP in VS Code, tested and documented APIs with Postman and Swagger, and managed code through GitHub to deliver production-ready features.

🎓 EDUCATION

GCE Advanced Level - Physical Science (Combined Mathematics) 12/2019 – 02/2022
Thurstan College, Colombo Sri Lanka
BEng (Hons) Software Engineering — Completed 01/2023 – 08/2026
Informatics Institute of Technology Sri Lanka
Formal graduation/convocation: November 2026

🧠 SKILLS

- Strong Work Ethic
- Time Management
- Team Work
- Interpersonal Skills
- Adaptive Learning

📁 PROJECTS

Room ODD — Architectural Firm Website 2026
Tech: Next.js 15, TypeScript, Tailwind CSS, Framer Motion, Resend
Full-stack architectural consultancy platform featuring editorial design aesthetics, 13 dynamic routes, multi-category portfolio filtering, and validated consultation booking workflows.

Typing Effect 2025
Tech: React, TypeScript, GitHub
Developed a custom React component to animate web titles using react-simple-typewriter, featuring multiple style templates and reusable hooks.

CaseCobra <i>Tech: Next.js, React, TypeScript, Tailwind CSS, Node.js</i> Personal project built with Next.js & TypeScript to create a custom mobile cover ordering platform. Gained hands-on experience with Shaden UI, React hooks, and modern UI development.	2024
ViprWatch <i>Tech: Flutter, Firebase, Machine Learning, AWS</i> Mobile application for snake identification using machine learning. Led the team and followed full SDLC practices in a production-level project.	2024
Pixilla <i>Tech: HTML, CSS, JavaScript</i> Web-based gaming application built to gain hands-on experience in frontend web development.	2023
